

DANIELA MOLINARI

Curriculum Vitae

PERSONAL INFORMATION

Date of birth: 15-06-1980

Nationality: Italian

Address: Via Cesare Battisti 7, 21050
Lonate Ceppino (VA) – Italy

Telephone number: +39 02 2399 6206 (work)

Mobile number: +39 348 644 5 333 (private)

Fax number: +39 02 2399 6298 (work)

e-mail: daniela.molinari@polimi.it (work)

danimoli2003@yahoo.it (private)

WORK EXPERIENCE

From February 2021 onward

Associate Professor at Politecnico di Milano (Milan, Italy)

Research field: Flood risk assessment and management

Institutional roles:

From April 2020 onward: Delegate for communication of the Department of Civil and Environmental Engineering

July 2015 – February 2021

Researcher (RTD A/B) at Politecnico di Milano (Milan, Italy)

Research field: Flood risk assessment and management

March 2011 – July 2015

Post-doc researcher at Politecnico di Milano (Milan, Italy)

Research field: Flood risk assessment and management

January 2007-December 2010

PhD student at Politecnico di Milano (Milan, Italy)

Research field: design and verification of Flood Early Warning Systems

January 2006-December 2006

Temporary researcher at Politecnico di Milano (Milan, Italy)

Research field: Natural and man-made risks assessment and management (ref. to publications J2, b1)

EDUCATION AND TRAINING

February 2011:

PhD in Hydraulic Engineering at Politecnico di Milano (Milan, Italy)

Title of the thesis: Flood Early Warning Systems performance: an approach at the warning chain perspective (ref. to publications J3, J5, B1, P1, P2, P3)

October 2005

Degree (with honors) in Environmental Engineering at Politecnico di Milano (Milan, Italy)
Title of the thesis: Fire numerical models for tunnels safety" (**Award** "The best graduates of Politecnico di Milano" a.a. 2004/2005)

INTERNATIONAL EXPERIENCE

February 2009 -May 2009:

Research visitor at RMIT University - Centre for Risk and Community Safety (Melbourne, Australia)

Research topic: Early Warning Systems Effectiveness (ref. to publications J3, J7)

Supervisor: prof. John Handmer

February 2003 - April 2003:

Student visitor at University of Exeter – Centre for Water system (Exeter, UK)

Research topic: computational fluid dynamics – combustion (ref. to publication J1)

Supervisor: prof. Gavin Tabor

TEACHING

From 2015 onward

Professor at Politecnico di Milano (Milan, Italy)

Courses:

2015-2016	Fluid Mechanics - Bachelor of Science in Mechanical Engineering
2016-2017	Fluid Mechanics - Bachelor of Science in Mechanical Engineering
2017-2018	Fluid Mechanics - Bachelor of Science in Mechanical Engineering
2018-2019	Fluid Mechanics - Bachelor of Science in Mechanical Engineering
2018-2019	Laboratory of emergency planning – Master of Science in Civil Engineering for Risk Mitigation (International programme)
2019-2020	Fluid Mechanics - Bachelor of Science in Mechanical Engineering
2019-2020	Laboratory of emergency planning – Master of Science in Civil Engineering for Risk Mitigation (International programme)
2020-2021	Fluid Mechanics - Bachelor of Science in Mechanical Engineering
2020-2021	Laboratory of emergency planning – Master of Science in Civil Engineering for Risk Mitigation (International programme)
2020-2021	Fluid Mechanics - Bachelor of Science in Mechanical Engineering
2020-2021	Laboratory of emergency planning – Master of Science in Civil Engineering for Risk Mitigation (International programme)
2021-2022	Fluid Mechanics - Bachelor of Science in Mechanical Engineering
2021-2022	Laboratory of emergency planning – Master of Science in Civil Engineering for Risk Mitigation (International programme)
2022-2023	Fluid Mechanics - Bachelor of Science in Mechanical Engineering
2022-2023	Laboratory of emergency planning – Master of Science in Civil Engineering for Risk Mitigation (International programme)

2006-2015

Assistant professor at Politecnico di Milano, Laboratory of emergency planning

from 2018 onward

(co) Supervisor/tutor of PhD thesis

2017 - 2021	Development of a multi-scale model for the estimation of flood damage, M. Galliani – PhD in Environmental and Infrastructure Engineering
From 2019	Verso una valutazione esaustiva del danno a supporto della mitigazione del rischio alluvioni, P. Asaridis - PhD in Environmental and Infrastructure Engineering
From 2020	Integrating climate change adaptation and flood risk mitigation at the building level, M. D'Angelo - PhD in Environmental and Infrastructure Engineering

- From 2021 Flood risk assessment for a sustainable design of the environment, M. Ballocci, PhD in Sustainable Development and Climate change
- From 2022 Comprehensive damage assessment in support of Flood Risk Management, A. Gallazzi - PhD in Environmental and Infrastructure Engineering
- From 2022 Development of flood damage assessment tools for the Italian Context, S. Rrokaj - PhD in Environmental and Infrastructure Engineering

from 2010 onward

Supervisor of Thesis:

- 2016-2017 *Affidabilità delle stime di danno alluvionale al variare del livello di conoscenza della vulnerabilità*, M. Galliani – Master of Science in Environmental and land planning Engineering
- 2016-2017 *AGRIDE: un modello esperto per la valutazione del danno alluvionale al settore agricolo*, A. Gallazzi – Master of Science in Environmental and land planning Engineering
- 2017-2018 *Flood Damage Assessment in Support of the Definition of Risk Mitigation Strategies: The Case of Lodi*, E. Gattai - Master of Science in Civil Engineering for Risk Mitigation
- 2017-2018 Implementazione e sviluppo del modello AGRIDE per la valutazione del danno alluvionale al settore agricolo, P. Pituello - Master of Science in Environmental and land planning Engineering
- 2018-2019 The Flood damage model repository – an opportunity to bridge knowledge gaps on flood damage assessment tools, I. Bombelli - Master of Science in Environmental and land planning Engineering
- 2018-2019 La modellazione della rete di trasporto stradale a supporto della gestione del rischio alluvionale, M. Frattari - Master of Science in Civil Engineering
- 2019-2020 Adaptation of an Italian flood damage model: INSYDE, to the Wallon Region – Belgium, D. Rodriguez Castro - Master of Science in Civil Engineering for Risk Mitigation
- 2019-2020 A modelling approach to support the emergency management in Health Care Facility in case of flood, D. Teofilo - Master of Science in Civil Engineering for Risk Mitigation
- 2020-2021 An empirical flood mortality model using random forest algorithm, M. Yazdani, - Master of Science in Civil Engineering for Risk Mitigation
- 2021-2022 Flood damage model: Development of INSYDE in the Po River basin, G.G. Huayra Mena , - Master of Science in Civil Engineering for Risk Mitigation
- 2021-2022 Sviluppo del modello di danno alluvionale AGRIDE-c per le colture orticole nell'ambito del distretto idrografico del fiume Po, V. Caldano - Master of Science in Environmental and land planning Engineering
- 2021-2022 Potenzialità e limiti del database AIDA a supporto della valutazione dei danni alluvionali, A. Beraldi - Master of Science in Environmental and land planning Engineering
- 2022-2023 Flood hazard and risk assessment in data scarce regions: the case of the Metuge district in northern Mozambique, A.M. Rotaro, C.D. Paz Idarraga - Master of Science in Civil Engineering for Risk Mitigation
- 2022-2023 A methodology for the assessment of the integrated vulnerability of Italian residential buildings with respect to seismic risk, flood risk and energy efficiency, V. Sansoni - Master of Science in Civil Engineering

Co-supervisor of Thesis:

- 2010-2011 *Creazione di un database per la definizione dei modelli di danno da rischio alluvionale*, G. Ottomano - Master of Science in Civil Engineering
- 2011-2012 *Valutazione critica dei modelli di previsione delle piene ai fini dell'allertamento della protezione civile: il caso della Regione Umbria*, A. Libera - Master of Science in Civil Engineering

- La valutazione del rischio secondo la direttiva alluvioni: una proposta metodologica applicabile al contesto italiano*, L. Legnani - Master of Science in Civil Engineering for Risk Mitigation
- 2013-2014 *Flood damage assessment with the help of HEC-FIA model*, R. Hasanzadeh Nafari - Master of Science in Civil Engineering for Risk Mitigation
- 2014-2015 *Post-disaster loss accounting vs disaster forensic: insights from the November 2013 flood in the Umbria region*, M.C. Rodriguez Parra - Master of Science in Civil Engineering for Risk Mitigation
- 2015-2016 *Scenario di rischio alluvionale per la città di Sondrio*, A. Bettiga - Master of Science in Civil Engineering for Risk Mitigation
- 2015-2016 *Effectiveness of structural mitigation measures to reduce residential buildings vulnerability to floods*, V. Bezzam - Master of Science in Civil Engineering for Risk Mitigation
- 2019-2020 *Un nuovo metodo per la stima del danno alluvionale*, T. Lazzarin - Master of Science in Civil Engineering, Università degli studi di Padova
- 2019-2020 *Quadro sinottico del danno di alluvione in Italia: proposta di un modello per il rapid mapping*. A. Pogliani – Master of Science in Environmental and land planning Engineering

from 2009 onward

Invited lecturer at specializing masters:

- 2006-2007 Specialization certificate for the assessment and management of geological and climate related risk – University of Geneva
- 2007-2008 Specialization certificate for the assessment and management of geological and climate related risk – University of Geneva
- 2009-2010 Master universitario di II° livello in Progettazione per lo Sviluppo Sostenibile in Aree Montane e Politiche per la Montagna dell'Unione Europea – Politecnico di Milano e Regione Lombardia
- 2014-2015 Master universitario di II° livello in Territorio e Architettura Sostenibili – Politecnico di Milano

2008-2009:

Student supervisor at Alta Scuola Politecnica (Milan, Italy) with the supervision of Prof. Fabio Inzoli (Department of Energy, Politecnico di Milano)

Title of the project: Preliminary risk analysis and emergency planning of an illegal settlement in Guayaquil

RESEARCH PROJECTS and ACTIVITY

Principal Investigator of the following Italian projects:

- HYRMA: Hydrogeological Risk assessment through Collaborative Mapping (PRIN project) – start in September 2023
- Flood-IMPAT+: an Integrated Meso & micro scale Procedure to Assess Territorial flood risk (funded by Fondazione Cariplo)(ref. to publications J17, J18, J19, J25, P15, P16, P17, P18, P19)
- Modelli per la previsione e gestione del danno alle reti in caso di alluvione (funded by Fondazione AMGA, ref. to publication P21)
- Verso una valutazione esaustiva del danno a supporto della mitigazione del rischio alluvioni (PhD scholarship funded by Banca D'Italia, ongoing)

Collaboration in the following **EU research projects**:

- Preparação para as mudanças climáticas e igualdade na província de Cabo Delgado (EU – Europeaid) (ongoing)

- LODE project (PREVENTION AND PREPAREDNESS PROJECTS IN CIVIL PROTECTION AND MARINE POLLUTION): Loss Data Enhancement for Disaster Risk Reduction and Climate Change Adaptation Management (ongoing)
- IDEA project (PREVENTION AND PREPAREDNESS PROJECTS IN CIVIL PROTECTION AND MARINE POLLUTION): Improving Damage assessments to Enhance cost-benefit Analyses (ref. to publications J10, P12, P13, P14, b7)
- KNOW-4-DRR project (SEVENTH FRAMEWORK PROGRAMME): Enabling knowledge for disaster risk reduction in integration to climate change adaptation
- ENSURE project (SEVENTH FRAMEWORK PROGRAMME): Enhancing resilience of communities and territories facing natural and na-tech hazards (ref. to publication J4)
- MIARIA project (INTERREG Project Italy-Switzerland 2007-2013): Monitoraggio Idrogeologico Adattativo a Supporto del Piano di Rischio Integrato Alpino (ref. To publication b4)
- SCENARIO project (SIXTH FRAMEWORK PROGRAMME): Support on Common European Strategy for sustainable natural and induced technological hazards mitigation (ref. to publications b2, b3)
- ARMONIA project (SIXTH FRAMEWORK PROGRAMME): Applied Multi Risk Mapping of Natural Hazards for impact assessment.

Collaboration in the following **Italian projects**:

- RETURN - multi-Risk sciEnce for resilient commUnities undeR a changiNg climate, funded by PNRR (WP leader)
- AMAZING - Atlas Mountains, Aurès Zone. Interconnecting local sciences and Global challenges, Polisocial Award 2022 , Politecnico di Milano
- Poli-RISPOSTA - stRumenti per la protezione civile a Supporto delle POpolazioni nel poST Alluvione, Polisocial Award 2012-2013, Politecnico di Milano (ref. to publications J6, J8, P8, b6)
- Sistemi di allerta precoce: aspetti tecnici, urbanistici e di comunicazione (PRIN project 2006)
- PROMETEO – RI-IMAGE (Politecnico di Milano project): strategic research on integration of methods and approaches of hydro-geological risk analyses in order to improve emergency management

Collaboration with Italian **authorities**:

- Interregional Agency for the Po River (2020-2021)
Project Manager of the research team of Politecnico di Milano of the project: Valutazione del danno alluvionale a supporto della gestione delle golene chiuse sul fiume Po ai fini della laminazione della portata di piena
- Po River Basin District (2020-ongoing)
Project Manager of the research team of Politecnico di Milano of the project: Metodologie e applicazioni per l'aggiornamento delle mappe di danno alluvionale relativamente alla revisione del PGRA (ref. to publication: J30, P22)

- Po River Basin District (ongoing)
Member of the research team of Politecnico di Milano on the theme: Floods Directive implementation – flood risk assessment and management (ref. to publications J9, P6, P7, P9, P10, P11)
- Umbria Region – Civil protection (2011-2016)
Project manager of the activities of Politecnico di Milano as Expertise Centre on the theme: forecasting and mitigation of hydrogeological risks (ref. to publications J6, J8, J10, b5, b6, b7, P4, P5)
- Valle d'Aosta Region (2014-2016)
Member of the research team of Politecnico di Milano on the theme: Floods Directive implementation – flood risk assessment and management (ref. to publications P9, P10, P11)
- Province of Varese (2008-2011)
Member of the research team of Politecnico di Milano for the development of the Provincial Emergency Plan for Drought

EDITORIAL ACTIVITY

Editor of the journal Natural Hazards and Earth System Sciences (from September 2020)

Editor of the journal Journal of Flood Risk Management (from January 2021)

Reviewer for:

- Natural Hazards, Springer
- Natural Hazards and Earth System Sciences, Copernicus
- International Journal of Safety and Security Engineering, WIT
- Sustainability, MDPI
- Water Resource Management, Springer

- Journal of Flood Risk Management, Wiley
- Science of the Total Environment, Elsevier
- Water Resources Research, Wiley
- Journal of Environmental Management, Elsevier
- SN Applied Science, Springer
- Geomatics, Natural Hazards and Risk, Taylor & Francis
- International Journal of Disaster Risk Reduction, Elsevier
- Sustainable Cities and Society, Elsevier

Co-Editor of the book "Flood damage survey and assessment: new insights from research and practice", AGU-Wiley, 2017

Invited as **Guest Editor** of the Special Issue "Natural hazard event analyses for risk reduction and adaptation", Natural Hazards and Earth System Sciences (2015)

Invited as **Guest Editor** of the Special Issue "Damage of natural hazards: assessment and mitigation", Natural Hazards and Earth System Sciences (2016)

Organiser of the international seminar "Flood damage survey and assessment: which priorities for future research and practice?" 24-25 January 2013, Milan, Italy

Organiser of the international seminar "Flood damage survey and assessment: new insights from research and practice" 11-12 April 2014, Bastia Umbra, Italy

Member of the International Scientific Advisory Committee of FRIAR 2014: 4th International Conference on Flood Recovery, Innovation and Response, 18-20 June 2014, Poznan, Poland

Co-convener and organiser of the session "Valutazione del danno e gestione del rischio alluvionale in Italia alla luce della Direttiva Europea 2007/60" at the XXXIV Convegno nazionale di idraulica e costruzioni idrauliche, 8-10 September 2014, Bari, Italy

Co-convener and organiser of the session "Forensic Disaster Analyses – Learning from Disasters" at EGU General Assembly 2015, 12-17 April 2015, Vienna, Austria

Co-convener and organiser of the session "Costs of Natural Hazards" at EGU General Assembly 2015, 12-17 April 2015, Vienna, Austria

Member of the International Scientific Advisory Committee of FRIAR 2016: 5th International Conference on Flood Recovery, Innovation and Response, 29 June - 1 July, 2016, San Servolo, Italy

Co-convener and organiser of the session "Natural hazard event analyses for risk reduction and adaptation" at EGU General Assembly 2016, 17-22 April 2016, Vienna, Austria

Co-convener and organiser of the session "Costs of Natural Hazards" at EGU General Assembly 2016, 17-22 April 2016, Vienna, Austria

Co-organiser of the special session "Validation in Flood Risk Modelling" at FLOODrisk 2016 3rd European Conference on Flood Risk Management, 18-20 October 2016, Lyon, France

Co-convener and organiser of the session "Natural hazard event analyses for risk reduction and adaptation" at EGU General Assembly 2017, 23-28 April 2017, Vienna, Austria

Co-convener and organiser of the session "Costs of Natural Hazards" at EGU General Assembly 2017, 23-28 April 2017, Vienna, Austria

Organiser and member of the Scientific Committee of the international workshop "Validation in Flood Risk Modelling: combining scientific, policy and market perspectives", 20-21 November 2017, Milan, Italy

Co-convener and organiser of the session "Natural hazard event analyses for risk reduction and adaptation" at EGU General Assembly 2018, 8-13 April 2018, Vienna, Austria

Co-convener and organiser of the session "Costs of Natural Hazards" at EGU General Assembly 2018, 8-13 April 2018, Vienna, Austria

Co-convener and organiser of the session "New hydraulic engineering contributions to flood resilience and mitigation" at 5th IAHR Europe Congress, Trento, 12-14 June 2018

Member of the Scientific Committee of the 39th IAHR World Congress: From Snow to Sea, 19-24 June 2022, Granada, Spain

Member of the Scientific Committee of the 7th IAHR Europe Congress: Innovative Water Management in a Changing Climate, 7-9 September 2022, Athens, Greece

Member of the Scientific Committee of the 40th IAHR World Congress: Rivers – Connecting mountains and coasts, 21-25 August 2023, Vienna, Austria

MEMBERSHIPS

From 2010 onward

Member of the European Geophysical Union

From 2014 onward

Member of Gruppo Italiano di Idraulica

From 2013 onward

Member of the International Association for Hydro-Environment Engineering and Research, from January 2018 elected member of the Flood Risk Management Technical Committee, from January 2020 vice chair of the of the Flood Risk Management Technical Committee, from June 2022 **chair of the of the Flood Risk Management Technical Committee**

From 2014 onward

Member of the Panta Rhei Working Group "Changes in flood risk", research initiatives within the IAHS (International Association of Hydrological Sciences) scientific decade 2013-2022 (ref. to publication J12, J14)
